

K-Love is very important to me & my family. We listen to the station everyday. The positive effect of this radio station is incredible. Due to economic constraints, it is difficult to get local Christian radio stations. A station like K-Love gives me the opportunity to get Christian radio programming. We need positive radio influences in our society. There is so much trash on the radio. Please do not do anything that would hinder me from being able to listen to a radio station such as K-Love.
